

Teaching in the 21st Century Classroom: Making It Real

CO-SPONSORED BY WAYNE RESA; ONE-TO-ONE INSTITUTE; AND THE SCHOOL OF EDUCATION, UNIVERSITY OF MICHIGAN—DEARBORN

Target Audience: K-12 Teachers, Administrators, Technology Coordinators, Media Specialists, School of Education Faculty

This informative and practical one-day event features a keynote, breakout sessions, and a panel of student-participants. In addition, there will be an opportunity to observe a 21st Century technology-infused classroom activity with 6th, 7th and 8th grade students. Focused on the needs of **K-12 educators** teaching today's digital students with the latest resources. This event promises participants exposure to new ideas and tools during an active and thought-provoking day.

Educators attending will:

- Hear a keynote on the 21st Century classroom highlighting what it means to teach and learn in today's digital classroom which details specific "look fors" in the classroom activities.
- View a classroom with 6th, 7th and 8th graders with laptops working on projects using Web 2.0 resources and tools.
- Consider the tools used in the keynote and classroom activities during breakout sessions.
- Understand ideas, approaches, planning and assessment required for teaching 21st Century skills.
- Gain access to a Wiki with all the resources, tools, approaches and planning available during or after the event.
- Have an opportunity to ask questions during a student and teacher panel discussion.

Pamela Livingston Keynote The 21st Century Classroom Teacher

Pamela Livingston is the author of *1-to-1 Learning: Laptop Programs That Work*, and has written for *Digital Directions*, *Connected Classroom*, *Learning and Leading with Technology*, *TechLearning* and *HotChalk*. Employed at the headquarters of EdisonLearning, she works to further education technology at EdisonLearning partner schools around the U.S. She is also an adjunct professor at Chestnut Hill College teaching "Emerging Technology in the Classroom" to K-12 teachers seeking Master's degrees. She holds a B.S. in computer systems and an M.S. in education and technology.
